# **ELECTION RESULTS FOR THE U.S. PRESIDENT, THE U.S. SENATE AND THE U.S. HOUSE OF REPRESENTATIVES**

This publication has been prepared by the Federal Election Commission to provide the public with the results of elections held in the fifty states during 2016 for the offices of United States President, United States Senator and United States Representative. Also included are the results for Delegate to Congress from American Samoa, the District of Columbia, Guam, the Northern Mariana Islands, the U.S. Virgin Islands and Resident Commissioner for Puerto Rico. Additionally, there are results for the special elections to fill the unexpired terms in Hawaii's 1st Congressional District, Kentucky's 1st Congressional District and Pennsylvania's 2nd Congressional District. The Commission undertakes this project on a biennial basis in order to respond to public inquiries.

The elections for these federal offices are administered by local election officials in towns, counties, municipalities, and other jurisdictions. The results of the elections are certified by the state government, which in most cases is the Secretary of State. While the full records are available for public inspection, most states prepare summary reports for public dissemination. These summary reports vary in form and content, and may be amended well after the election. There is no standard format that states use in reporting federal election results.

Recognizing a need to bring together in one place the federal election results, the Commission presents this publication as the 18th in a series designed to provide an accurate, historical record of federal election results.

Included in this publication are the official results of primary elections and runoff elections held in 2016. As in the case of the general elections, primary elections are not administered by the federal government. In some states (such as Connecticut, Utah, and Virginia), political party organizations control their nomination process by way of conventions. In other states, state law may regulate the primary and/or its administration.

This publication has been prepared as a research tool for Commission staff and State election offices. Data is based on official figures obtained from State election officials. The Electoral Vote was obtained from the State Certificates of Vote on file with the U.S. National Archives and Records Administration. If the election results are modified in the future, the Commission will supply errata supplements as necessary. The assistance provided by the State election officials and their staff in the preparation of this publication is greatly appreciated.

Federal Elections 2016 may also be viewed and/or downloaded from the Commission's website, <https://www.fec.gov>.

## EXPLANATORY NOTES

- The candidate who was the winner of the general election is listed first in the entry for each state and district (where applicable). After that, the candidates are arranged by party affiliation.
- Incumbent Congressional candidates facing re-election in 2016 are designated with an (I) to the left of the candidate's name. The lack of an (I) in a particular Senate race or U.S. House district indicates an open seat race.
- The party affiliation of the candidate is as listed on the ballot and has been abbreviated. A complete listing of party abbreviations appears at the end of this publication.
- Totals for write-in votes are shown as disclosed by the state. Some states list the names of candidates who received write-in votes, while others provide a write-in vote total without the names of the candidates who received the votes. Still other states combine these two variations and provide the names of some candidates who received write-in votes and a total of write-in votes for all the other candidates. Registered write-in candidates that received "0" votes are not included.
- In some states, there were unopposed candidates whose names did not appear on a ballot and therefore received no votes.
- "Total Votes," "Total State Votes," "Party Votes," and "District Votes" represent all the valid votes cast for the candidates in the election. State totals (and the totals for the territories and the District of Columbia) are found in the summary charts and at the end of each state/territory section. Blank, void, under and over votes are not included.
- "Combined Parties" represents all the valid votes cast for one candidate, regardless of party. (This method is used where a candidate may be listed on the ballot more than once, with different party designations, i.e., in Connecticut, New York and South Carolina.) These votes are then broken down and listed by party. The party votes are enclosed by brackets [ ].
- The percentage of votes received by each general election candidate is based on the figure of total votes. The percentage of votes received by each candidate in a primary or runoff election is based on the figure of total votes cast in that specific primary or runoff election.
- Due to the rounding of percentage numbers, some percentages may not total 100%. Also, some states differ in how they round percentages. The percentages in this publication were all rounded the same way and may not match the percentages as reported by the state.

## 2016 ELECTION RESULTS

The following four sections present the primary, runoff and general election results for the U.S. Presidential and Congressional elections held in 2016.

The November 2016 general election (along with Louisiana's December 2016 runoff election) resulted in the election of the 115th Congress. The following is the party composition of the 115th Congress, as determined by the results of these elections:

### U.S. Senate

Republicans: 52

Democrats: 46

Independents: 2

### U.S. House of Representatives

Republicans: 241

Democrats: 194

### Notes on Charts

\* Runoff election vote totals have been included with the primary election totals. (For the U.S. House of Representatives, runoff elections were held in Georgia, Oklahoma, and Texas.) For Louisiana, the December election vote totals have been included with the general election totals. (In Louisiana, the December 2016 runoff election was held for U.S. Senate and U.S. Congressional Districts 3 and 4.)

\* For states that had votes for both full and unexpired terms, the votes for both terms are included in the totals. This applies to Hawaii (HI/01), Kentucky (KY/01), and Pennsylvania (PA/02).

The following three situations account for blank spaces in the charts and should be considered when making comparisons or drawing conclusions about the vote totals.

\* In some states, i.e., Connecticut, Utah and Virginia, political parties may nominate general election candidates by party convention, rather than by primary election.

\* In some states, there were unopposed candidates whose names did not appear on a ballot and therefore received no votes.

\* 34 states had regularly scheduled U.S. Senate elections in 2016.

\* A candidate is endorsed by the party at the party convention. A primary election is only held if a qualified challenger to the party endorsed candidate receives 15% of the delegate votes on roll call at the convention and files for a primary, or, if after the convention, a challenger files a requisite number of petitions to qualify for primary ballot access. Otherwise, the party endorsed candidate is the nominee. The Democratic convention for the U.S. Senate was held on May 7, 2016, and the Republican convention was held on May 9, 2016. An asterisk denotes the party's endorsed candidate.

\* Conventions are held by the political parties prior to the primary election. If one candidate achieves the required convention vote (in accordance with party rules) and there are no candidates that qualified for a primary election by gathering petition signatures, then the candidate is the nominee and the primary election is not held. If a convention candidate does not achieve the required convention vote, then the top two convention vote-getters will participate in the primary election, along with any candidates that qualified by the signature-gathering method. For the Democratic and Republican parties, the required convention vote for nomination was 60%. The Constitution Party convention was held on April 9, 2016; the Democratic, Republican, Independent American and Libertarian conventions were held on April 23, 2016. Convention nominees are noted with an asterisk.

\* Washington utilizes a "Top Two" primary election system in which the top two vote-getters in the primary election advance to the general election regardless of party affiliation. According to the state, "Each candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate."

\* A candidate is endorsed by the party at the party convention. A primary election is only held if a qualified challenger to the party endorsed candidate receives 15% of the delegate votes on roll call at the convention and files for a primary, or, if after the convention, a challenger files a requisite number of petitions to qualify for primary ballot access. Otherwise, the party endorsed candidate is the nominee. The Democratic and Republican conventions for candidates for the U.S. House of Representatives were held on May 9, 2016. An asterisk denotes the party's endorsed candidate.

\* Conventions are held by the political parties prior to the primary election. If one candidate achieves the required convention vote (in accordance with party rules) and there are no candidates that qualified for a primary election by gathering petition signatures, then the candidate is the nominee and the primary election is not held. If a convention candidate does not achieve the required convention vote, then the top two convention vote-getters will participate in the primary election, along with any candidates that qualified by the signature-gathering method. For the Democratic and Republican parties, the required convention vote for nomination was 60%. The Constitution Party convention was held on April 9, 2016; the Democratic, Republican, Independent American and Libertarian conventions were held on April 23, 2016. Convention nominees are noted with an asterisk.

\* Washington utilizes a "Top Two" primary election system in which the top two vote-getters in the primary election advance to the general election regardless of party affiliation. According to the state, "Each candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate."
